It is well-established that drug use and addiction is a major problem that impacts all of us on multiple levels; individuals, families and communities bear the many ill-effects that it has on our safety, health and the economy. The alarming reality of the opioid epidemic, in particular, has created an urgent need to work together to reverse these trends.

We also recognize that for any anti-drug program to be effective, strong enforcement must be supported by an effort to reduce the demand for illegal substances and this is best accomplished through continued prevention education along with improved access to treatment and recovery support.

The mission of the Sussex County C.L.E.A.R. Program is to form a collaborative network of professionals in our community who will facilitate medical intervention, improved access to treatment and recovery support for those struggling with drug addiction who seek assistance, without fear of arrest or prosecution, in order to make a positive difference in the quality of life for individuals, families and our entire community.
